President's Report

TO THE TRUSTEES OF THE

SOLDIERS' HOME IN MASSACHUSETTS.

Gentlemen: I herewith submit the twenty-third annual report of the Home.

There have been four regular and six special meetings of the Board during the past year.

It has been a very laborious one in the management of the Home. The change by the Government in the rules regarding pensions has made a great deal of work and has caused considerable discontent among the men. It has increased the work of the Treasurer, and requires his daily presence. Under the old rule, two (2) dollars per month was allowed the pensioners for pocket money and the balance was sent to the dependent ones where there were any, and if there were none it reverted to the Home, the Government receiving credit for half of it. Now each pensioner has the whole pension and can do as he pleases with it, and in this way many who in the past received some of the pensioners' money for their support, now receive none, and in a great many cases are called to suffer. I sincerely hope that the law will be changed at the next session of Congress.

Directly after each pay day, there are many who either take a discharge or furlough and go out, and in a short time their money is all gone and they come seeking admittance, partly under the influence of liquor or else bring it in for their comrades; the men become unruly and make it hard work for those that care for them. We find that bringing liquor into the Home is the worst evil we have to contend with.

Dr. McCreary, the assistant surgeon, having failed to pass the examining board, we had to secure the services of another as assistant surgeon. We secured the services of Dr. Philip C. Means, who was hired on probation and if found acceptable will be permanently hired as assistant surgeon.

The surgeon of the Home, Dr. I. W. Starbird, has not been very well the past few months and your Executive Committee told him that he deserved a rest and to take a vacation in the country and see if it would not benefit him. I am happy to say that the country air and rest is making an improvement in his condition. The hospital patients are increasing and we are doing all in our power to help them. Your committee feeling that we needed more and better hospital accommodations for those that needed care, went before committee of the Legislature and asked for an appropriation of one hundred thousand (\$100,000) dollars for a new hospital. Our petition was granted and as soon as it is decided where to place it, we shall have plans made and submit them to the Governor and Council for their approval, when work will be commenced if it is thought that it can be done for the amount received from Legislature.

During the past year the expense of caring for those under our care has increased and there are various causes for the increase. The members of the Home are growing older and more feeble and require more attention. Civilian help has been increased and we shall want more as the men increase in age.

Chas. D. Nash, superintendent, and Dr. I. W. Starbird, surgeon of the Home, and all under them have fulfilled to the best of their ability the duties required of them in governing the Home.

I was unable to attend Memorial Day exercises at Forest Dale Cemetery, as it has been my custom for many years, on account of an engagement elsewhere. The Board of Trustees were represented by the Secretary, Joseph B. Maccabe, with others who gladly assisted the ladies of the Aid Association in preparing flowers for the men of the Home to scatter over the green covered tents of their comrades.

The market men of Boston, as has been their custom for many years, supplied a greater part of the food for Thanksgiving and Christmas day dinners. It seems to me that we should pass a vote of thanks to all who in any way contributed to the enjoyment of the men of the Home on these two annual feast days.

There have been 94 deaths during the year. More than any year since the Home opened.

Number of men in Home June 30, 1904	383
Number of men in Home June 30, 1905	453
Number admitted to the Home since it was opened	4,178
Number readmitted	2,304
Total number cared for since Home opened	6,482

It is indeed a pleasure to think that we have been enabled to take care of so many since the Home opened. I know that it requires a great deal of your time in planning to carry on the work. Let us now, with renewed energy, take up the work for another year and while life lasts and strength is given us, do all we can for the needy veterans of our country's service.

The Ladies' Aid Association, Woman's Relief Corps, Sons and Daughters of Veterans are all doing what they can to help us in our noble work.

Since the close of the year, June 30, 1905, we have lost by death one of the members of the Board of Trustees, Gen. Wilmon W. Blackmar, vice president of the Board, who died at Boise City, Idaho, July 16, 1905. He had always been interested in the Home since its organization, and after becoming a member of the Board was of great help to us, by his wise counsels and heartfelt interest in everything connected with the Home. During the past year he had often expressed to me that after his year as Commander-in-Chief of the Grand Army of the Republic he was going to devote more of his time to the interests of the Home. An all wise Providence has called him from his labors here, to other duties beyond the river of life. As one after another of our members pass on, let us take up the work with renewed energy and march on.

I would extend my thanks to the members of the Board for all they have done during the past year and would remind them that more will be required in the year to come. We should give of our time and strength willingly to care for the needy ones, until the Great Commander of us all calls us to pitch our tents on the other shore.

I remain respectfully yours,

PETER D. SMITH,
President.

Attention is called to the fact that the total expenditures, (\$161,837), exceed by the sum of \$77,845 those of the preceding fiscal year, which were \$83,992,—an increase of 92.6 per cent.

From this large aggregate, however, there should be deducted, in order to obtain the current cost of running the Home for the year, the following sums:—

Pensions	\$34,780 00
New ice machines, new boilers, etc., about	12,000 00
Sales of stores, etc.	1,500 00
Effects of deceased members	750 00

amounting, in round numbers to forty-nine thousand dollars; leaving a balance of about \$113,000. Applying the same process to the expenditures of the previous year, we find \$69,000 as the current cost, reducing the increase in current expenses in the past year over those of the preceding year to \$44,000 or 61%.

The average number of members of the Home during the year was 371—an increase of 45 or a little more than 12% over the preceding year; and the average cost of maintenance per capita, based upon current expenses of \$113,000 was \$307.28.

An analysis of the accounts shows that the principal items of increase are as follows:—

Subsistence, \$42,104—an increase of \$16,384, or 60.3%.
Pay roll, 34,379—an increase of 11,203, or 47.5%.
Household, 12,650—an increase of 3,614, or 40%.
Clothing, 8,277—an increase of 5,444, or 190%.
Hospital, 3,860—an increase of 1,305, or 50.1%.

These five items amount to \$101,270, forming, as will be seen, the greater part of the expenditures for the year.

About \$10,000 may fairly be allowed on account of an increase in membership; but this only partially accounts for the remarkable increase in current expenses, and I suggest to the trustees the advisability of an immediate examination with a view of curtailing expenses as far as can be done with due regard to the comfort and welfare of the members of the Home.

PENSIONS.

An important change in the rules relating to the pensions of members of the Home went into effect on the first of July, 1904. This was in consequence of an act of Congress, approved April 28, 1904, which provides that no part of the appropriation by Congress for aid to State Homes for Disabled Volunteer Soldiers shall be given to any Home until the laws, rules or regulations of the Home respecting the pensions of its inmates shall have been made to conform to the act of March 3, 1883, prescribing regulations for the Soldiers' Home in Washington in the District of Columbia; that is to say, our Home cannot obtain any part of the one hundred dollars per capita allowed by the United States government to the average membership of the Home if any part of the pensions of the members be taken for the support of the Home.

Under these new requirements the pensions of members of the Home must be turned over to the treasurer; not, however, to become a part of the funds of the Home, but to be held in trust for the pensioners; excepting, first, that any pensioner who has a child, wife or parent living may assign the whole or any part of his pension to such child, wife or parent; and second, that there may be paid over to any pensioner from time to time, upon his request, such part of his pension money as may be deemed best for his interest and consistent with the discipline and good order of the Home. All money not so assigned by the pensioner or allowed and paid to him upon his request, by the trustees, remains in trust in the hands of the treasurer, to be paid to him upon his discharge, or, in case of his death, to his legal heirs. It is expressly provided that no portion of the pension money so held in trust shall be taken for the use of the Home, in payment of any charge against the pensioner or on

account of any fine or penalty, or for any purpose whatever. Thus, if a pensioner should commit an act of malicious mischief or wantonly damage or destroy the property of the Home, no part of his pension money can be taken to repair the damage or pay for the destruction. Apparently the purpose of this trust provision is to encourage the pensioners to save their money. With this in view, it is interesting to note that during the first quarter the amount of money left in trust was \$2,631; in the second quarter, \$1,467; in the third quarter, \$336; and in the last quarter, only \$156.

On the other hand, during the first quarter the amount of allowances requested by pensioners, (all of which was granted,) was \$1,745; in the second quarter, \$2,439; in the third quarter, \$6,485; and in the fourth quarter, \$7,284. Comparing the allowances for the last quarter (\$7,284) with the amount placed in trust (\$156), and it will be clearly seen that the savings are but an insignificant fraction of the amount received.

In view of the rapidly increasing cost of maintaining the Home and of the manifest justice of requiring a pensioner to contribute what he can to his own support, I earnestly recommend action by the trustees toward obtaining legislation under which the former practice regarding pensions may be restored.

Respectfully submitted,

WM. M. OLIN,
Treasurer.

MEMBERSHIP.

It will be observed that the membership of the Home has increased quite a little over that of last year, the total membership this year being 453, as compared with 383 last year, a gain of 70 members and the average present 371, as compared with 326 last year. We close the year with the largest membership in the history of the Home. This increase in membership at a time of year when the tide heretofore has been away from the Home rather than to it, indicates that the infirmities of age are increasing among the veterans of the great war and each year finds a larger number who, unable to longer fight the battle for a living, naturally turn to the Soldiers' Home for care and comfort. This condition will probably continue and for a few years at least the Home will be called upon to care for a larger number than at any time since its organization. Indeed the Home is full today, and it is but the beginning of summer, with the advent of cold weather we shall probably be obliged to turn worthy applicants away for the want of room. There seems to be no relief for this condition until the new hospital is completed, when by taking the room occupied by the present hospital for barracks, we shall be able to accommodate 150 more. The wisdom of the Board of Trustees in asking for an appropriation for the building of a new hospital and of the Governor and Legislature of 1905, in passing and signing the bill will be justified in more ways than one before the Soldiers' Home ceases to be of use.

HOSPITAL.

The work in this department of the Home continued in charge of the surgeon, Dr. I. W. Starbird, until April 10th, upon that date feeling too ill to longer continue the work, Dr. Starbird turned the hospital over to first assistant surgeon, Dr. W. E. Hamlin, and retired to his residence, since which time he has not been able to report for duty. Dr. Hamlin since taking charge has conducted the affairs of the hospital in an efficient manner, and the work of caring for the sick seems to progress as well as usual. May 1st Dr. John W. McCreary, the second assistant surgeon, tendered his resignation. He was succeeded by Dr. P. C. Means, who came on three months' trial.

Dr. Means' work has been such that he is recommended by the acting surgeon, Dr. Hamlin, for permanent appointment as second assistant surgeon. There have been several changes in the corps of nurses during the year but both the day and night force as at present constituted are very efficient and a very great help in the management of the hospital. The woodwork and walls have been painted throughout and the hospital presents a neat and clean appearance. Mr. Cutter the hospital steward, is still with us and the dispensary under his charge is all that can be desired. The woodwork and walls of the rooms and dormitories of the barracks have been painted throughout with good results. All the buildings were painted last fall. Two new 90 horse power boilers have been installed to take the place of three smaller ones removed. This gives us boiler capacity enough to furnish all the steam necessary for our present needs, at a somewhat less cost in coal.

The new ice machine installed this year is giving excellent satisfaction, it furnishes all the refrigeration needed and makes ice enough for all demands. It requires to be run but an average of twelve hours per day, whereas the old machine had to be run twenty-four hours per day, and with less satisfactory results. The fire pump has been overhauled and put in thorough repair and its condition at present is as good as new. Some of the sills of the stable and hen house were found to be so badly decayed that it became necessary to replace them with new ones. Proper repairs have been made to both buildings and they are now in fairly good condition. New floors have been laid in the main kitchen, and main dining room, very much to the improvement of both. The repairs for the year have been quite heavy, but everything that has been done was much needed and the property has been improved thereby. I trust the expenditures in this direction will be much less the coming year and I can see no reason now why they will not.

The Ladies' Aid Association, that body of loyal, faithful women, still continue their interest in the Home. It seems to be a duty, and I think a pleasure to them to always be doing something for the welfare of our membership. The sincere thanks of the Home are extended to them, I also desire to extend the thanks of Mrs. Nash and myself for the many kindly expressions of good will, and words of encouragement which have come from them the past year. Of the work of the W. R. C. in the interest of the Home, too much cannot

be said. They have responded nobly to the suggestions of the matron in regard to furnishing and caring for rooms, both in the hospital and the barracks, and in many other ways have proven themselves to be worthy members of a grand and noble organization. The Sons of Veterans and the Daughters of Veterans for their excellent work of the year are included in the sincere thanks which we extend to all.

April 5th the Governor and Council visited the Home for the purpose of inspecting the conditions in the hospital and the Home. Memorial Day 180 men in barges and by trolley, proceeded to Forest Dale Cemetery and took part in the service of decorating the graves of 351 comrades buried in the Soldiers' Home lot. Members of the Ladies' Aid Association were present as usual to arrange the flowers contributed by Post No. 113, and the Board was represented by Hon. Joseph B. Maccabe, secretary.

May 16th Gen'l N. M. Curtis of New York, asst-inspector Gen'l, of the National Homes for Disabled Volunteers visited the Home for muster and inspection.

We are indebted to Comrade Montgomery Gipson, Post 35 for the continued interest he takes in the Home. Under his direction on the first Sunday in July, assisted by the Sons of Veterans and a company of young ladies from Chelsea, a beautiful memorial service was held in Peter Smith hall for the 84 comrades who had passed on during the year. We extend our thanks to Comrade Gipson for this and many other favors.

The discipline of the Home is on the whole very good. There is still chance for improvement among a very small per cent. of our membership but the conduct of the great majority is excellent.

I desire to extend my thanks to yourself and the members of the Board for all courtesies received at their hands by Mrs. Nash and myself during the year. To the officers of the Home who have so ably discharged their duties and who have rendered loyal service to me, my thanks are due and are most sincerely tendered.

Herewith is forwarded the report of the surgeon together with descriptive lists of all members of the Home for the year ending June 30, 1905.

I have the honor to be

Very respectfully,

CHARLES D. NASH,
Superintendent.

The year closes with 148 patients in the hospital, a larger number than at the close of any previous year. During the last few months the capacity of the hospital has been taxed to its full extent. So great that men who should have been in the hospital had to be sent to Barracks and be taken care of out of the hospital.

Those taken into hospital from the Barracks were 118 or 47.77% and from new admissions to the Home 129 or 52.23% of the whole number admitted.

The serious condition of those admitted direct to hospital is shown by the fact that 50.55% of the deaths during the year occurred among this class.

Of those admitted from Barracks, 24 or 26.97% have died, but several of these have been in the hospital months or years. The daily average in the hospital for the year has been 142. During the months of May and June, the daily average who had their food carried to them was 100. This helpless class is on the increase, and with our present facilities for carrying the food from the basement kitchen to the wards, the feeding of the patients involves great labor and requires the services of many men. A good part of these patients have to have their food prepared for them and fed to them by an attendant.

Of the men dying in the hospital three were Spanish War Veterans, two died from consumption, aged 27 and 28 years respectively; one from chronic nephritis, aged 55 years. Of those of the Civil War, 5 between the ages of 56 and 60, 42 between 60 and 70, 29 between 70 and 80 and 10 between 80 and 90. The average age at death was 68.79.

The abstract accompanying will give the names, cause of death and length of time in hospital.

ATTENDANTS.

Dr. I. W. Starbird, Surgeon of the Home, is away on sick leave owing to illness. Dr. John W. McCreary who was appointed as an additional assistant surgeon in May, 1904, resigned in May, 1905, and Dr. P. C. Means of Readville was appointed in his place.

The taking on of a new ward first part of the year, the personnel of the nurses was changed, a head nurse and two new nurses were appointed. Miss A. M. Mailes, head nurse with Mrs. L. A. S. Avery, Miss C. M. Herrick, Miss L. B. Merriman, Miss Zillah Baker, Miss E. L. Reeves and Miss J. B. Rittenhouse, as nurses. Their patience and kindly care are important factors in promoting the comfort and happiness of the men. Mr. Howard A. Cutter, steward and pharmacist, has continued his service in the hospital with the same interest in his work.

The men employed to assist the nurses have difficult and often trying duties to perform, but their patience and fidelity deserve the commendation which I gladly record.

VISITORS.

The Trustees have had additional duties thrust upon them, but continue to manifest the same warm solicitude for the best interest of the Home, as for many years past.

The Ladies' Aid Association and the many Relief Corps not yet weary in well doing, continue their efforts in behalf of the aged veterans, with no diminution in their anxiety to do all they can for those who bore the burden when the country needed their services.

The hospital has continued to have the benefits of the counsel and assistance of Drs. Samuel Crowell, R. E. Brown, E. P. Starbird and Geo. H. Gray, the latter two being appointed to the Consulting Staff this year, also of Dr. Arthur J. Shaw, oculist of the staff. Their services are cheerfully given when desired.

In closing this report I desire to express my thanks to all who have aided in the care of the sick.

Respectfully submitted,

W. E. HAMLIN, M. D.,
Assistant Surgeon.

To

CHARLES D. NASH,
Superintendent.
